

Daniel Mendegorin|

Hi, I'm Niel, a full-stack web developer with passion in building user-friendly web applications. I am skilled in developing front end UI and backend systems with modern technologies such as React, Express.js, Node.js, and MongoDB. I am motivated to take on new challenges and build high quality web applications that will deliver exceptional user experiences.

RecipeEZ

The RecipeEZ (Recipe made Easy) app is a digital cookbook that offers a wide range of recipes from various cuisines. The app allows users to search for recipes by its main ingredient (e.g beef, chicken, pork, seafood, vegetarian, others), or its cuisine (e.g Filipino, Japanese, Chinese, Western, etc.), making it easy to find a meal that fits their needs. With easy-to-follow instructions, detailed ingredient lists, and helpful tips, the app enables users to cook delicious meals with ease and confidence.

RecipeEZ v2

The RecipeEZ (Recipe made Easy) app is a comprehensive digital cookbook that offers a wide range of recipes from various cuisines. With its user-friendly interface and powerful features, the app simplifies the cooking experience for both novice and experienced chefs. Users can search for recipes by main ingredient or cuisine, browse a collection of public recipes, create their own personalized recipe collection, set cooking timers, and even share their favorite recipes with others. Whether you're a passionate home cook or simply looking for culinary inspiration, RecipeEZ is your go-to app for delicious and hassle-free cooking.

Aboitiz Scholars Central

The Aboitiz Scholars Central app is a scholarship dashboard that aims to be the central hub for everything related to scholarships. Its dashboard will provide information on the total number of supported scholars, their scholarship status, the number of graduates, their employment status, grades, and demographics like age, gender, and location. With its name, the app emphasizes that it will serve as the primary source of scholarship-related resources and information, including a comprehensive database of scholars' data.
